Subject: Thank you from US EPA, Region 5 (Chicago Office)

Hi Jennifer and Marisa,

Thank you so much for your presentation at our State Drinking Water Directors' Meeting. We are grateful for the time you put in to help make our meeting a success.

Your perspective sparked insightful discussions, both on the challenges of a city-wide lead service line replacement program, as well as on your public health outreach efforts. Thank you for sharing Milwaukee's experiences. Your insights were very much appreciated.

Thanks again,

Andrea Porter

Environmental Engineer
